

Teeco E. Jewettertahoo

It is with great sadness that we announce the passing of our beloved member Teeco E. Jewettetrahoo.

I met him in 2007 when he attended one of our breast cancer seminars with his lovely wife Mary and his son Michael. After observing our Keeping Abreast of Health group in action he and his wife decided to join our organization.

Mary instantly accepted the Assistant Director of Nursing for our organization and he accepted the position of Parliamentarian which eventually led to the position of Sargent at Arms.

Through the years of working with Mr. Teeco I found out he was a spiritual man and so I asked him to add to his position the role of Chaplain. Mr. Teeco even tried to help the organization to obtain grants to help our organization grow and reach more people about breast cancer awareness.

When he became ill he continued to support the organization from his home. His show of his love for his family was amazing and it was constantly shown by his attending our meeting and supporting Mary his wife in anything she did for the organization,

It was a privilege and a blessing for me to know Mr. Teeco. He will be truly missed.

Linda Ratliff Davis, RPh

Chairman of the Board

Keeping Abreast of Your Health.
